Coding Skills Development Competition

School of Computer Engineering & Technology of MIT World Peace University offers latest curriculum which increases our student's competency. The intention of such syllabus is to bridge the institute-industry gap. But, the plethora of technologies and tools is becoming larger day-by-day and demands some intrinsic motivation for students to learn few technologies on their own.

To fuel motivation into students of the school, we are organizing a coding skills competition on a regular interval (typically once a month). The competition will be based on latest technologies practiced by IT industries. This competition will also establish a coding culture in the school, which is much needed at these times.

This activity will be carried out in association with Codersera (<https://codersera.tech>)

Coding Skills Development Competition

August-19 Challenge

This coding skills competition has two levels: **LEVEL-1** and **LEVEL-2**.

Level-1: Typically will challenge your thinking ability and improve your coding aptitude.
(Advised for Second Year students, even the First Year students can also explore this part.)

This part of the competition will be conducted on campus premises. Participant (individual) will code for a given problem statement in particular time. This activity is aligned with recruitment level coding practice and will train you for Industry Standards.

Level-2 Is the real deal. Here you will be solving industry level real-time problems. This is a take away home problem. You can work on the problem for 15 days. You along with your team (Max-3 students) will be developing a solution for the given problem. This segment would require exploring new technologies. Showcase your talent here. This activity promises learning beyond syllabus (Advised for TY Students.)

- Level-1 and Level-2 are **separate competitions** under '**Eklavya August Chapter**'
- **Exciting rewards includes MITCOINS on MIT Console App**
- Interested Students can register [HERE](#)

Competition	Description	Registration	Rewards
LEVEL-1	<ul style="list-style-type: none">➤ On Premises coding competition.➤ Individual participation. (No Fees)	<ul style="list-style-type: none">➤ Before 23rd August 2019	<ul style="list-style-type: none">➤ MITCOINS on MIT Console App➤ Certification
LEVEL-2	<ul style="list-style-type: none">➤ Take Away Problem Statement➤ Team Registration(No Fees)➤ 15 days duration for problem solving	<ul style="list-style-type: none">➤ Before 26rd August 2019	<ul style="list-style-type: none">➤ MITCOINS on MIT Console App➤ Certification
